

Village Green Report

Village Green, one of our largest assets but also one of biggest cost on finances.

2025/2026

The new children's play area was ready for the fete opening last year, paid for by grants and supported by the PC.

Most of the work was achieved and overseen by Greg Deeks, Nigel Rodgers and Will Raymond. The grass contract has included the requirements of the cricket club and their new T20 series. This year hedges have been cut; trees have had their lower branches cut and grass has been "weeded".

We have one new member on the Village Green committee but still looking for more members to share the responsibilities further. Even though the play area is new, regular checks must be made and fortunately, no faults have been found to date. It is almost a year since the installation, and we will arrange an Annual Safety Inspection.

Dogs are not allowed in play area.
